User Input	Response_2
Sick Leave	The sick leave policy provides 12 days of sick leave entitlement each year, which is accrued annually and can be advanced. Employees can carry forward up to 10 days of unused sick leave, with 100% of the entitled days eligible for carry forward. However, sick leave cannot be encashed. Sick leave is applicable based on loss of pay and is not dependent on service confirmation or length of service. Additionally, any carry-forward sick leave does not expire.
